6 Reasons why you should buy your used FORD Car from an Authorized Ford Dealer

- 1 All used cars sold by authorized Ford dealers are guaranteed to be as represented.
- 2 All used Fords are reconditioned with genuine Ford parts only by authorized Ford dealers. These are charged against the car at 25 per cent off list prices. The buyer gets the benefit.
- 3 A clear title is given with every used Ford car, ensuring the buyer against the risk of buying a car that has been stolen or unlawfully converted.
- 4 The year of the car is guaranteed to be as stated by the authorized Ford dealer.
- 5 The Ford Motor Company of Canada, Limited, allows only responsible business men to sell its products, assuring fair and just treatment in all dealings.
- 6 The authorized Ford dealer is a permanent business institution in this community. He cannot afford to jeopardize future business by selling anyone an unsatisfactory car.

And You Get This Guarantee

If any Used Ford car purchased from an authorized Ford dealer is not as represented it may be returned within seven days and the purchase price will be credited on any other used or new Ford car

The Flaming Frontier

AN EPIC OF THE EARLY DAYS.

Based on the glorious epic days of the heroic General Custer's last stand—with thousands of Indians—whole troops of U.S. Cavalry—Frontiersmen—Scouts and Plainsmen in profusion—all in a remarkable portrayal of the immortal story of America's last frontier. That's "THE FLAMING FRONTIER."

IN MEMORIAM

Korczynski—In loving memory of our dear daughter and sister, Lily, who passed away April 15th, 1924. Sadly missed.—Father, Mother, Brother and Sisters.

LOCAL ITEMS

Hotel Royal, near C.P.R. station, on main street, Vulcan. Rates 50c., 75c., \$1. Mr. and Mrs. Pete Beardsley were in Calgary for two or three days this week.

Dr. J. L. Chapelle, pioneer Palmer Chiropractor of Calgary, will open an office in Vulcan about May 1st.

There will be a dance at the Vulcan opera house on Monday night. Music by Len Davis and his Arcadians.

The box social and dance at the Union Jack school last Friday night, under the auspices of the Football Club, was a decided success socially and financially. Music was furnished by Messrs. Rushfeldt, Hansen and Richardson, assisted by Mrs. Henderson on the piano. The sum of one hundred and fifty dollars was realized from the sale of boxes and single admissions, and the Union Jack football team is now well away and will appear in good form with the very latest and best in uniforms. The executive of the club desires to express their appreciation to the Eastway W. I., who furnished refreshments for those who did not have the good luck to buy a basket.

The Calgary Kiddies do not need an introduction to a Vulcan audience, as they are well known here. The members of this versatile company are growing bigger and better every year. In their 1927 Revue they are offering for your approval, a girls' orchestra, comedy skits, singing, dancing, dialogues, and monologues. These young people hope to please all the people all the time, but failing in this they will try to please most of the people most of the time. We know there are some things we may not like, but the person next to us may enjoy it immensely. The girls having this thought in mind have spent much time in the parts department before visiting the assembling plant where the finished product is turned out to meet the just criticism of the audience. The Kiddies will appear in Vulcan on Thursday evening, April 21st. Enough said. Come and enjoy a good laugh.

An advertisement in this issue of The Advocate announces the location in the Post Office of the ballot box to receive the votes in connection with the contest which is a feature of the coming Elks' Fun Fracas. The votes will be counted daily and the result of each count will be posted on a bulletin which will also be located in the Post Office. Interest will continue to increase until the last hour of the final day of this big event. The young ladies who have been nominated as candidates in the ticket-selling campaign are: Miss Muriel Holden, Brant; Miss Lillian Whillams, Blackie; Miss Marjorie Ferguson, Champion; Miss Clara Jacobson, Vulcan; Miss Florence Loiselle, Vulcan; Miss Vera Vankiver, Vulcan; Miss Irma Rannels, Vulcan. Tickets have been distributed and the development already apparent would indicate a keen race for the magnificent grand prize and the other awards.

LOCAL ITEMS

The visit of High River bandmen to Vulcan on Thursday night, the successful presentation here of "The Arizona Cowboy" by the Alston Dramatic Club, operations of the Calgary Power Company affecting Vulcan, radio broadcasting by Mr. Ober of programs by local artists, and other items of interest, will have more extended mention in next issue. It has also become necessary to hold the publication of the Rest Room statement until next week.

Mr. Fred Chapman and Miss Mary Galbraith, who are well known to many locally, having been for some time residents in the district, recently returned from the East as Mr. and Mrs. Chapman. The former has been engaged in farming in the district, and the bride is a sister of Messrs. D. H. and George Galbraith. Friends in town will join those in the country in extending to Mr. and Mrs. Chapman congratulations and all best wishes. They will reside here.

Recent transactions in land in the immediate vicinity of Vulcan have been somewhat extensive, and include the sale by Mr. L. L. Hanson of his half section. Messrs. Morris Lyman and Robert Lyman have also sold their large and splendidly improved properties, aggregating approximately twenty-five hundred acres, and the transfer was made at fifty-five dollars per acre. We understand that Messrs. Lyman will go into the State of Washington, where they now have interests.

It was apparently considered quite the proper thing, when a world celebrity of the picture performers came as a visitor to Vulcan, that she should receive the attention and direction of one of our chief municipal dignitaries, and what wonder that at the hotel the staff became active and courteous to a degree that would have made Douglas Fairbanks jealous. The surprise incident of the visit was the effort of one of our live fellows to switch the date for a drive with the lady rather than make it that night. These are the result of a little escapade on the part of Fred Simington, made up as movie queen for a part that he had that night in a performance at a local lodge function, and that he put over the bunch as he did, is a compliment to his ability as an actor and an evidence of the excellence of the make-up. This little nonsense was relished by all the men.

The several petitions necessary in connection with the proposed establishment of a municipal hospital at Vulcan, before reported as having been signed largely beyond the number required by the law in the matter, will next receive the consideration of the proper authorities of the provincial health department, and should there be the despatch with them as there has been with the men of the committee working under the chairmanship of Mr. E. G. McPherson, it will not be long when the question will be presented in printed form and discussed at public meetings. Then comes the vote, and already the indications are that this will be almost unanimous in the affirmative. Procedure required by the hospital act is being followed and this will secure a decision in the matter in the shortest possible time. Everything is going along fine. The Advocate man, in a letter from Miss McLeod, superintendent of the hospital at High River, received the good wishes for the success of the scheme, and these we broadcast to all who labor in support of the enterprise and those who favor it. Mr. George McVine, who is chairman of the High River board, was in Vulcan the other day, and to the editor expressed in a decided way a like sentiment.

LOCAL ITEMS

Trade at home until 1940, and the rest of the century will take care of itself.

Mr. and Mrs. R. H. White, of Retlaw, are at present guests at the home of their daughter, Mrs. Wes. Griffin. Mr. and Mrs. White intend residing permanently in Vulcan, where good citizens are always welcome.

Master Billy McKenzie, son of the winners of the car at the Elks' Fun Fracas last year, fell down cellar at the family home, and as a result is carrying in a sling a broken arm. This is an incident in the life of many a boy, and the fall will soon be one hundred per cent once more.

Mr. L. H. Stack and Mr. Alex. Mitchell have secured the services of Mr. Sid Avery in the planning and for the beautifying of their residence premises, and he is now at the work. Mr. Avery is a landscape expert and tree and garden consultant, who not only advises but actually does the work.

Anglican services will be held at St. Aldhelm's Church, Vulcan, as follows: April 17th, Easter Sunday, Holy Communion 8:30 a.m., Sunday School 10:00 a.m., Choral Eucharist 11:00 a.m., Evensong 7:30 p.m. April 24th, Sunday School 10:00 a.m., Morning Prayer 11:00 a.m., Evensong 7:30 p.m. Mr. Kemp will officiate at these services.

Rev. Geo. Woods, known throughout the province as the founder and superintendent of Woods Home, one time at Olds and now at Calgary, recently made an appeal at Vulcan in support of the home, and the response was the contribution of one hundred and fifty dollars. The home is in favor generally and is in institution which truly merits support.

Vulcan is now the headquarters of Len Davis and his Arcadians, an orchestra in favor here and everywhere. This makes resident here a number of real dance musicians, and since their arrival a week ago have had full-time engagements here and in the surrounding territory. They have secured the contract for the dance in connection with the Elks' Fun Fracas, and will no doubt secure the major portion of the dance business locally. Mr. Davis will also be musical director at the picture show. The orchestra will furnish the music at the Easter Monday dance at the opera house.

Increased storage is being set up close to the Vulcan No. 1 well, which will be used in case of need to hold the production from the well, stated to be around 125 barrels per day. The capacity of the new tank will be 2000 barrels. Further improvements on the same site include the laying of a two-inch pipe line from the well to the Royaltide plant. This pipeline will be commenced as soon as the necessary materials arrive from Okotoks, where they await haulage. Steady progress is being made at Vulcan No. 2 well in preparation for spudding in, which will be carried out in about ten days' time.

Official notice has been received in Vulcan of the annual meeting of the Alberta Southern Baseball League, to be held in High River on April 17th, to which Vulcan is invited to send a representative. This only will bring to mind again the fact that thus far this season there has been nothing doing in Vulcan with respect to the organization of a baseball team, and present prospects are not promising, but at that you can never tell. We need a baseball team as a matter of good business in connection with local carnivals and celebrations and such like events, to say nothing of the place in sport which it would fill.

The town council, in special session on Friday, decided that the celebration of Dominion Day in Vulcan, which has for years been recognized as the established annual event, shall be continued in 1927. This is a truly community event, promoted and financed on the responsibility of the town, directed by the municipal council, and Mr. Harry Nelson, who has received the appointment of manager and secretary. This year is the Diamond Jubilee of Confederation, and the program this time will be arranged specially in keeping with the importance of the occasion. Details, of course, have not yet been arranged, and the council and management are devising plans for exceptional entertainment, and will be in a position to consider suggestions for a jubilee celebration.

LOCAL ITEMS

Work is to be resumed on the construction of a new house, on the street opposite the recreation park, commenced last fall and being built for Mr. Gus Spaeth. This will be a portion of the considerable building activity planned in Vulcan for this season.

Easter communion service at the United Church last Sunday morning was of an unusual character, and most impressive, when twenty-one boys and girls of the 'teen age were received into full membership on profession of their faith and six by certificate from other churches. The Junior choir of the church rendered special music.

Mrs. Max Mutz has returned temporarily from Calgary to Vulcan to put the home in order for the return of Maxine, the little daughter, who has had a long period in the hospital at Calgary, whose condition is showing improvement that would indicate her release the early part of next week. This will be splendid news to many friends.

Local interest in the railway wreck at Seven Persons on Sunday afternoon is increased by the fact that at least one of the victims is well known in Vulcan. He is Lou Ward, goalkeeper of the Lethbridge hockey team, who has played at the Vulcan rink. His injury is the loss of both hands at mid-palm and a compound fracture of one arm. Members of both crews of the trains in the collision are known to the C.P.R. station staff at Vulcan.

The tree planting campaign started in Vulcan some few years ago as a municipal enterprise, and which has produced such gratifying results, is to be continued, so it has been decided by the town authorities. The program will include replacements necessary on the streets and elsewhere, planting at the cemetery and the prepared ground at the park. The stock necessary for this will be taken from the splendid nursery that has been developed at the park as far as possible and the balance purchased. There is no argument as to this undertaking the beauty of the trees in town making the citizens of one mind, and all of them proud of the expressed admiration of visitors.

The initiation of Philander McNutt into Lodge No. 13, Order of Married Men, and his little affair with a movie queen, was an interesting first part of the Rebekah social evening program on Monday. This burlesque was a scream, and in the spirit of lodge neighborliness was contributed by a Masonic fun team. It was put on in real style and created a continuous wave of laughter that at times approached the hilarious. Dancing and a capital supper were the other chief features which were delightful entertainment to the capacity attendance of guests, many of whom were from surrounding towns and lodges. The event was one of the best ever under local Rebekah auspices.

The property in Vulcan, which has for some years been known as the McAlpine garage, has been sold by Mr. McAlpine to Mr. O. C. Sproule, who will at once go into business and establish what is to be known as the Vulcan Auto Repair Shop, furnishing an expert service in auto and machinery repairing, and service in the sale of gas and oil and auto parts and accessories. Mr. Sproule, who is a practical and experienced man in this line, comes here from Saskatchewan, came to Vulcan and was at once impressed with the town and the results of enquiries as to the district, and purchased readily. Mr. Sproule also at once became a subscriber of The Advocate and will make his business announcements through the medium of this paper.

Hockey in Vulcan has been promoted jointly by the club and the committee of the municipal rink, and so it is that the financial statement is annually presented to the town council and this year the same was delivered by Mr. Jack Thompson, secretary-treasurer of the club, and so comprehensively and accurately was the accounting of the business and finances, that the council accorded Mr. Thompson a motion of thanks and appreciation. The statement included the interesting fact that there was a cash surplus of one hundred and twenty dollars. Messrs. McKinnon, Leverington and Thompson, in the interests of hockey, interviewed the council with a proposition for next season, and this the council accepted. Details are not yet available, but in the arrangement there is an assurance that Vulcan is to have a team of the calibre that Vulcan demands, with terms better suited to the team, and the town relieved of the financial and other responsibility. It would appear that all things are working together for good, and for once it can hardly be said that the start on hockey was not made soon enough. Power to the promoters.

LOCAL ITEMS

Mr. and Mrs. Gordon Hanna were visitors this week to Calgary.

Mr. and Mrs. Kehr and Miss Elsie have moved from the farm into town, and are occupying the splendid residence next to the Anglican church.

Under the auspices of the Vulcan branch, Canadian Legion, a smoker and entertainment will be held at the club rooms on Friday night next, April 22nd. There will be lots of talent and real entertainment.

Mr. L. A. Wright, of the Bank of Commerce was in Calgary on the first day of the week to attend a conference of the Commerce managers in the province, which was attended by Asst. General Manager Rowley.

Easter services will be conducted at the United Church next Sunday morning and evening. Baptismal service at 11:00 a.m. In the evening special Easter music will be rendered by the united choirs. Come and bring your friends with you.

The new townman and constable, Mr. Arthur Key, who entered this week upon his duties, is a musician, and will be remembered as a clarinet player in the Citizen's Band during his previous residence in Vulcan. The band will no doubt welcome him back.

The secretary of Vulcan and District School Fair has received notice of a voluntary contribution of a special cash prize of \$6.00 from the Alberta Shorthorn Breeders' Association. This will be divided three, two and one, for best Shorthorn calf, pure bred or grade, sired by registered Shorthorn. This will appear in the special prize list.

Mr. and Mrs. C. B. Shimp, and Charlie Kiser have returned from an extended trip to California, and at Spokane they were joined on the journey home by William Kiser. Cal has told the editor part of the story of the visit and of many sights and experiences on the trip, but is pleased to be back to Alberta. Incidentally he mentioned that he saw a number of ball teams any one of which he would have been delighted to bring to Vulcan.

The Elks lodge has secured a lease of the skating rink for the summer months. This is not in the least a self-fish idea, but rather the reverse, for the plan is to install a gymnasium, provide facilities for games and sports for young and old, and if calculations carry the rink this season will be a regular pleasure centre, furnishing recreation and physical culture as well as entertainment. The Elks will in due course make definite announcement of their program.

The staff of the Pyramid Motors at Vulcan has been increased by the addition of Mr. Al. Collier, of Medicine Hat, as salesman. Mr. Collier is an experienced man in the car business. Mrs. Collier has also arrived to become a citizen here, coming out of the Hat on the passenger train which figured in the orders effecting the freight trains that went into collision at Seven Persons on Sunday. Mrs. Collier describes the snow storm which was raging at the time as one of the worst, with an abundance of snow.

"Song of Sixpence," a cantata, will be rendered by the Junior Choir of the United Church, under the direction of Clara D. Wang, B. Mus., of the Lethbridge Conservatory of Music assisted in concert by soloists on the piano and violin, at the Union Church, Vulcan, on Monday, April 25th, commencing at 8:15. The junior choir has long been popular in church service, and in the presentation of a cantata should secure generous patronage. Miss Wang has become popular as a teacher, and the training which she has given the chorists assures an entertainment of merit. To this will be added selections by soloists on the piano and violin.

With the ultimate intent of erecting a new block for club and other purposes, it was voted to establish a building fund, at a large and representative meeting of the Canadian Legion recently held. There was an open and general discussion of the building idea, and the methods of creating a fund were considered, and one adopted was a prize dance to be held in July, and the grand prize to be an automobile—a Chrysler coach. Tickets are already on sale and there is little doubt but that everybody will be made acquainted with the details of the affair. Associate members elected W. E. Butchart, Norman Holmes and James Marshall as their representatives on the executive. The idea of a new building, if such can be financed, was generally favored, and there is no lack of optimism as to the finance question. That the present quarters are inadequate it is agreed, and that a fine new block would be an asset in many ways is accepted as correct, and the active and associate members are already busy on the task of getting the money.

How far will your car go before the miles begin to tell?

ALMOST any car will give you satisfactory results for the first 10,000 miles or so.

But if you want the same fine service on through the second, third and many following tens of thousands of miles, buy a McLaughlin-Buick!

Accurate tests at the great Proving Ground of General Motors, where all cars are driven and examined, show McLaughlin-Buick's sturdy construction and powerful Valve-in-Head Engine still gaining in efficiency at the point in miles where other cars are distinctly on the down grade.

It is the care in McLaughlin-Buick design—the tests at the Proving Ground to be sure a suggested change is right—the search for better and more durable performance constantly carried on—which are responsible.

Enormous volume and its savings make possible this extensive research and McLaughlin-Buick's superior construction. McLaughlin-Buick cars are built for big mileage on their speedometers—for greater satisfaction to their owners. Buy one for years of exceptional service.

VULCAN ADVOCATE

VULCAN, ALBERTA

PASSING OF AN INSTITUTION

The country store is passing. It is going to join the covered wagon, the town pump and the ox team. Thousands of them still keep their old estate, but in other thousands glittering fixtures, plate glass showcases, gilt cash registers and steam heat have supplanted the wood stove, the upended nail keg, the cracker barrel and the dry goods box handy for the whittler's blade. With its mingled smells of new rope, kerosene, yellow soap, coffee, cheese, plug cut and calico the country store is an institution it will be to the great loss and with the great regret of the vast rural population of the nation. What the department store is to the city the cross roads general store has been to the country. It has the compendiums of the wants of man. It has been even more than that, for through it the farmer and his good wife were able to convert butter and eggs into shoes and sealing wax. What the club is to the city the general store has been to the country. The country store has been the forum and intellectual arena of a large area of this broad country. These countless centers for rustic gathering have been the fountainheads of those rivulets of politics and opinion that joined themselves into irresistible floods of national opinion. Rural Canada is in process of transformation and every step in that process brings nearer to obsolescence the country store of song and story, of the jester's fling and the cartoonist's pencil. The hot-dog stand, roadside garage and tea house are aiding in the extermination but can never take the place of this pioneer institution.

TEACHERS vs. SCHOOL BOARD

A rather interesting case was tried recently before Justice Mahaffy at Red Deer involving the financial relations of Grassy Lake school board and the teacher, Mr. McVand who was not satisfied with the amount offered him by the board and brought action against them for the balance of full salary of \$1100 named in contract. The school act sets 210 teaching days as a year's work and the plaintiff had only taught 202. He claimed this shortage was the result of his having started the term late owing to delay in engagement, not his fault and the other four days were holidays. After hearing the evidence His Lordship allowed the claim in respect of four days half the period in dispute.

British money invested in Canada amounts to two billion dollars. American investments in Canada total three billion dollars.

If Eve came back today, she would not feel so much embarrassed.

EASTER MORN

'Tis Morn! The Resurrection Morn!
Our Lord is risen on high;
A gleam of golden radiance
Tints the darkened eastern sky.
The gleam it glows and brightens
Until glen and hill and moor
Are bathed in its effulgence
And it shines from shore to shore.
What a message of hope to the sinner
Who e'er since yesterday
Is plunged in depths of darkness
Whose head, with despair, is torn.
A message of beautiful, wondrous love,
To the soul who with hope has striven
To follow the sorrowful way of the Cross,
And the end? O' rejoice! It is heaven
—S. E. Kiser.

ELEVATOR RESERVE FUND

The Alberta Wheat Pool has an elevator reserve fund totalling \$1,371,965.63 and a commercial reserve fund of \$423,901.88. The total amount collected in reserves is \$1,795,867.41. The elevator reserve is being expended in building or acquiring elevators. Locations for country elevators are selected on the basis of deliveries of Pool wheat, covering a period of three years, and the acreage signed up in the district served by the shipping point. Naturally those places with a large sign-up will get Pool elevators before localities with a small sign-up. On the books of the organization every member is credited with his share of the reserves. On the elevator reserve interest at the rate of 6 per cent per annum is credited each member. Every member gets a statement yearly showing the amount to his credit in these reserve funds. The question of how or when this money will be paid back is left entirely in the hands of the board of directors. The board has not yet decided how or when this will be done, but the probability is that it will be done on a revolving fund basis. All members will be treated alike. A member will not get his share in the reserves any sooner by not signing a new contract. Neither will a member get his share any sooner by signing a new contract.

LAW A QUEER THING

Another case of the owner of an automobile having to pay \$7,000 damages to two persons injured in his car when it met with an accident, is reported in Western Ontario. The two "friends" had accepted the invitation by the car owner to a trip to a neighbouring town. An accident occurred and the two guests suffered injury. They brought suit for damages against the owner and were awarded \$7,000 by the Court. Had those friends asked to be taken on the trip it would have been different. But they were guests and as such entitled to the protection and safe transit by their host. Law is a queer thing. So is human nature. A magazine article states that if all the razor blades manufactured by a certain company this year were laid side by side and end to end, they would cover an area 900 miles wide and 1,600 miles long.

It may seem a cheerful augury to the farmer that we are headed for a time when agriculture will have to hustle to keep pace with the country's food shortage.

CO-OPERATE

Ay tink Ay vill co-operate
Und help my neighbor out.
Ay can't get anywere alone;
Dat's so vidout a doubt.
He needs my help, Ay needs hes, too.
Ve pull yust like a team—
Ven he kvits quarreling vid me
Und Ay kvits fighting heem.

Ven ve each odder fight
Und say each odder von is wrong
Ven neider von is right.
Ve pull our loads dat easy
No vun will veel de weight—
Ven me und heem togeder work
Und boat co-operate. —Exchange

WHEAT POOL'S TERMINALS

Under the terms of a lease recently agreed upon between the Pool and the Vancouver Harbor Board, No. 2 Terminal Elevator at Vancouver, owned by the Canadian Government, will pass to the control of the Alberta Wheat Pool August 1, 1927, for one year, at a yearly rental of \$100,000. This terminal has a capacity of 1,500,000 bushels and cost in excess of \$2,600,000. No. 1 terminal was leased to a private grain man at an annual rental of \$145,000. It has a capacity of 2,100,000 bushels. The securing of the lease on No. 2 terminal elevator provides the Pool with a total terminal capacity on the Pacific Coast of 2,750,000 bushels. The Prince Rupert terminal has a capacity of 1,250,000 bushels. With 142 line elevators in Alberta and two big terminals at the Coast, the Alberta Wheat Pool will be in a better position to more advantageously handle its members grain. C. M. Hall, General Manager of Alberta Pool Elevators Ltd., and W. J. Jackman and Lew Hutchinson, directors of the Pool, are in Winnipeg this week negotiating with private elevator companies who offered for sale country elevators at certain points in the province, where the Pool wishes to serve its members with Pool elevators.

JONAH'S FEAT DUPLICATED

Capper's Weekly relates the following incident without comment: One James Bartley, an English sailor, was missing after the crew of his vessel had captured a large sperm whale off Falkland Islands in February, 1891. After working a day and a night removing the whale's blubber, the stomach was hoisted aboard showing signs of life. Upon cutting it open Bartley was discovered inside unconscious, but was shortly revived only to be found to be a raving maniac. He recovered his reason in about two weeks and related his experience of having been thrown from a boat and slipping into the whale's stomach. He said the heat was terrific, but he was able to breathe, although he soon became unconscious and knew nothing more until he regained his senses on board the ship. It is said that Bartley's skin was bleached to deathly whiteness by the heat and the gastric juices of the whale, and remained so, although he otherwise recovered.

Toronto capital will develop the only known blue talc deposits in Canada, the bed located about ten miles southwest of Banff. A private company, adequately financed, has been organized, and it is said that development operations will begin at once. White talc deposits are also found in association with the blue talc. Both are valuable, but blue the more so, being in demand for use in electrical machinery and equipment.

Sooner or later Europe must become one nation, and anyone who travels in it will always be in a common fatherland. After the fall of my system it seems to me that the only way in which an equilibrium can be achieved in Europe is through a league of nations—Napoleon Bonaparte.

NEVER GIVE UP

A barber invented the old time spinning wheel.
A farmer experimented and worked during the long winter nights, and finally brought forth the invention of printing calico in its many pretty colors.

A gardener spent his evenings studying architecture and became famous while working in his employer's garden.
A blacksmith earned his living working at his trade, and, in spare time, learned twenty-two dialects and eighteen languages, which brought him money and fame.

A baker became one of the world's distinguished astronomers.

A common printer discovered electricity with two sticks and a silk handkerchief, probably having borrowed the latter.

A shoe cobbler became a great naturalist while working at his bench.
So never give up; your turn may be next.

Sixty-four per cent of the population of the three prairie Provinces live in rural districts.

The Most Brilliant Type of six-cylinder performance need cost no more than this price

HUPMOBILE Six is the splendid result of a conviction that the finest and most brilliant type of six-cylinder performance can be built into a Sedan or Brougham to list for less than Hupmobile's price.

In designing and manufacturing this Sedan, Hupmobile has gone the limit—actually raising the quality of the car a full 10 percent without any raise in purchase price, thus obviously making it the closest-priced six in Canada.

We invite you to try out the Hupmobile Six—to enjoy its thrilling performance, its smartness and elegance both inside and out—to discover for yourself why so many thousands of buyers have singled it out as offering more quality per dollar of purchase price than any other six on the market.

Sedan (illustrated) five-passenger, four-door, \$1910. Brougham, five-passenger, two-door, \$1910. Coupe, two-passenger, with rumble seat, \$1910. Roadster, with rumble seat, \$1910. Touring, five-passenger, \$1825. All prices f.o.b. Windsor.

10 DE COMPETITION

The Provincial Chapter of the Imperial Daughters of the Empire again draws attention to its essay competition open to boys and girls attending the public, separate and secondary schools in the province of Alberta. The competition for this year's Diamond Jubilee, will be divided into two classes. The first class—Grades 9 and 10, the second class—Grade 7 and 8. Three prizes will be given for each class consisting of \$25.00 for the best essay, \$15.00 for the second and \$10.00 for the third. The following rules govern the competition:

1. In the first class (Grades 9 and 10) the essay shall not be longer than five thousand words and not shorter than two thousand five hundred; and in the second class (Grades 7 and 8) not longer than four thousand five hundred and not shorter than two thousand four hundred.

2. The subject of the essay shall be "Confederation, its History and Effects on the Development of Canada up to July 1, 1927."

3. The essays are to be clearly written on only one side of the paper with a margin of at least two inches. The name of the competitor is to be written at the end of the essay, with the name of his or her school and a statement that the essay is the unaided work of the competitor; also a statement from the teacher giving the grade of the competitor.

4. In judging the essays, manner as well as matter, will be considered. The essays must be grammatically constructed, correctly punctuated and written in clear and simple English.

5. The essays are to be sent, not later than April 30, 1927, to the Provincial Secretary, Mrs. J. C. Noell, 816 4th Ave., West, Calgary, Alta.

ENJOYED THEIR TRIP

Rev. J. W. Jenkins and Mrs. Jenkins returned last week from a four month's visit with their son, Mr. Wilfred G. and son-in-law and daughter, Mr. and Mrs. O. A. Rhodes at Owensboro, Kentucky. The weather conditions during their visit was such that the farmers could not gather their corn crop owing to excessive floods. During January and February the weather was delightful. In February Mr. Jenkins visited at Richmond, Virginia where he found a very delightful climate as well as a most delightful class of citizenship noted for their kindly hospitality and geniality.

There appears to be a great deal of dissatisfaction among the farmers of the United States generally. Crops in several sections have been poor. Farmers of the tobacco growing States have been hard hit on account of low prices, this being brought about largely by farmers failing to co-operate in a system of marketing their products. The failure of the McNary-Morton bill vetoed by President Coolidge created considerable agitation in politics across the line. The President's exposure of its weakness and fallacies however satisfied the great majority of farmers and stilled the troubled waters for the time being. The appeal to the government for aid for the farmers will not help the farming industry as the farmers must work out their own salvation by adopting more scientific methods of farming in the production and sale of their crops. Mr. Jenkins found in the Middle West, that farmers favored the removal of the embargo on Canadian cattle. They have millions of bushels of corn and no stockers to consume it. The people of the cities, he said, have not forgotten that the Canadian in 1911 turned down Reciprocity pact with the U. S., but nevertheless there is a sentiment in force there in favor of a removal of the embargo. From Owensboro, Mr. and Mrs. Jenkins went to Cleveland, Ohio, which is one of the great business centres of the lake states. The outlook for another year of wonderful prosperity is most promising. In making comparisons, Rev. Mr. Jenkins observed that in his journeyings to and from Kentucky, he frankly confessed he saw, after leaving Lethbridge, evidences of a wonderful and fertile country. The huge stacks of straw and the thick stubble fields looked good to him although the terrific windstorm on Thursday was not much to his liking.

The 1926 clip of wool from Alberta was 1,805,702 pounds. Sheepmen who met at Lethbridge recently in convention maintain that the cycle of low prices has been completed, and that, while production was increasing, all surplus stocks were being rapidly cleared up. Indication point to a very material improvement in consumption.

Sugar beets and Jersey cattle is the combination that W. T. Passey, successful mixed farmer of Magrath, looks upon as a better investment than oil stocks. On his 60 acre irrigated farm he has half a dozen pure-bred Jersey cows, three of which are milking and putting \$1.50 of milk and cream into the pail every day. This is the net price as it is called for by the customers.

The Prince of Wales rode his own mare Lady Doo to a thrilling victory in the South Notts point to point steeplechase in Oxtou, England, on April 7. The 3½ mile race was run on a heavy course. The Prince was cheered wildly by women betters who had backed Lady Doo.

NEWS OF INTEREST

Mr. Heathcott, who is engaged in survey work for the Calgary Power Company, is now engaged in the Nanton district.

Canada imported nine million pounds of butter last year. There should be no contented cows in Canada until they are capable of supplying the home market.

A half section of land in the Magrath district has been sold at \$60 an acre—the highest price recorded in that area for years. The report from Magrath says that most of the land is in summer fallow, ready for cropping in the spring.

W. M. Lyle is on the sick list, but the physician hopes that he may regain his usual state of good health within the next sixty days. W. M. is a very active man, and has many public interests, and this long continued activity has demanded that he take a vacation.—Bow River News.

All necessary arrangements have been made between the city and the Robin Hood Mills, Limited, for a \$500,000 flour milling plant. The company owns a ten acre site on the north side of the city of Sasatoon and will likely erect four buildings, an elevator, a flour mill, warehouse and office buildings.

A class of boys had been studying physiology, and one day the teacher told them to write a composition on "The Spine." Among the many papers sent in was the following: "The spine is a bunch of bones that runs up and down the back and holds the ribs. The skull sits on one end, and I sit on the other."

Authorities at the Walla Walla, Wash., penitentiary are considering establishing a canning plant to provide work for idle prisoners. The product would not be put into competition with canned goods from private factories as it would be used in the other jails, asylums, sanitariums and institutions of the States. Hon. Mr. McPherson, who is considered to be a canny Scot in money matters, might consider some such scheme for Alberta. Irrigated lands at the provincial jail farm here would provide the raw material.

Down in Fort Worth, Texas, they have an exalted idea of Canadian justice, and the sentence of two years' hard labor passed on Dan Bush, former secretary-treasurer of Fertile Valley, near Ponoka, for embezzlement, will do nothing to dispel it. Last summer it was found by auditors that the accounts of the municipality were not all they should be, there was, in fact, an unexplained shortage of approximately \$9,000. Bush was traced to Texas, arrested, brought back and sent to the penitentiary after trial at Red Deer.

Debts on the new Nanton hall erected last year by the Elks of that town have been reduced by nearly \$1000 as the result of a play staged during the past few weeks. It was entitled "Are You an Elk?" and was played with success twice in Nanton and once in High River, Cayley and Vulcan. T. F. Hamilton, principal of the Nanton school, directed the performance. Those included in the cast in addition to Mr. Hamilton were Dr. G. E. McKeage, Charles Johnson, Miss M. T. Davis, Mrs. T. F. Hamilton, Mr. and Mrs. T. R. Featherston, Mr. and Mrs. J. McKenzie, Mrs. W. F. Kirchoff, Mrs. L. McIntyre and Auson Garbutt.

Messrs. Dan and Neil Beaton who came to Alberta in October 1903, homesteaded east of Blackie and purchased considerable land adjoining thereto, disposed of their interests to a number of Doukhobors and expect to leave for the States in the near future. Upon their arrival here from Wyoming, Messrs. Beaton Bros. brought with them a fine herd of pure bred herefords and they farmed in an extensive way. The series of dry years and the ultimate slump in stock was a hard blow to them and they finally decided to sell out, lock, stock and barrel. We understand about 36 Doukhobors will settle on the Beaton farm which they will operate in a co-operative way. They came here from Saskatchewan and B. C. and are said to be excellent dirt farmers. Messrs. Beaton Bros. will go to Southern B. C. for a time after which they will visit with relatives across the line.

PREVENT FOREST FIRES

You May Lose Your Job If Forest Fires Continue Unchecked

Hundreds of thousands of Canadian men and women depend upon the forests for their livelihood. You may be one of them.

A lighted match, a cigarette butt, thrown down carelessly in the woods, or a campfire left smouldering, may cost you your job. It is up to you; be careful of fire when in the woods.

CHARLES STEWART
Minister of the Interior.

Save Your Forests

Vinol Helps Nervous, Run Down Men

"Before taking Vinol, I was run-down, nervous and irritable. Now I feel like another person."—R. McCoy. Vinol is a simple, strengthening iron and cod liver compound in use for over 25 years for sickly, nervous women, run-down men and weak children. The very FIRST week you take Vinol, you begin to feel stronger, eat and sleep better. Contains no oil—you'll like its pleasant taste.—Errett King, Druggist, Vulcan.

BIG SHIPMENT OF BEEF CATTLE

What is reputed to be the best all-round bunch of beef cattle ever shipped from the Blackie district was a five carload lot consisting of 108 head shipped this week from here to Vancouver by Messrs. O. F. Malmberg & Sons. The steers were fed on the Malmberg farm and show the best of care and feeding. One steer tipped the scales at 1500 lbs. Mr. O. F. Malmberg left on Monday evening for the coast to see to the delivery of his shipment.

KIRKCALDY NEWS

Field work has started and a few are drilling grain.

Mr. Bill Mallory, from Saskatoon is here visiting his brother and family.

Mrs. Ruth Hobbs has gone to join her husband at Raymond, Alberta.

Mr. Joe Myers spent the week end in Calgary having his teeth repaired and while there he attended the horse show.

Mr. Grant Mallory returned home from Manitoba where he spent some time on business.

The terrible dust storm on Thursday last has given the household attendants plenty of work to do.

The Kirkcaldy Girls Club will hold a meeting on Saturday, April 16th at the home of Dorothy Martin.

The Sunday School here is growing this spring and an interest is being shown. Fifty-three being present on April 10th. Zella and Marguerite Todd gave a duet which was enjoyed by all. Mr. M. B. Ryan gave a very fine sermon. He will be here again, April 24th. Everybody welcome.

BLACKIE NEWS

A Smallpox epidemic is reported to exist in the Frankburg district.

Mrs. Helen Roebuck accepted the position as teacher with Sand Pit school District recently and left for there on April 4. This is a new school district recently formed and the school building is a new one and Miss Roebuck commences the teaching profession under bran new conditions. The school is situated 7 miles east of Vulcan.

There was a baseball meeting called this week to organize but the attendance was such that it was thought advisable to disperse until a more convenient season. Interest in baseball is not so tense as obtained in 1926. However the season is young and it is possible that an active baseball club will be organized ere long.

The old Tom Callahan section of land was recently acquired by Mr. G. Meyers from A. R. Diggins. The deal was in the nature of an exchange. Mr. Meyers trading his section and a quarter of land for the Callahan section. This is said to be one of the best farms in the district, is well improved and can nearly all be put under cultivation. Mr. Dipple will operate Mr. Meyers' new farm for 1927. It is Mr. Meyers' intention to plant trees extensively on the farm and also paint and renovate the buildings.

REID HILL NEWS

Mrs. Guy Walker has been confined under the doctor's care in Vulcan for the past week.

Sorry to report Mrs. Leslie Marshall ill with scarlet fever. Mrs. Robert Marshall is caring for her.

Calgary visitors last week were Rev. and Mrs. Stacey also Mrs. B. Lockhart.

Patients admitted to Calgary hospitals during the last week were Mrs. Peter McIntyre and Mr. Bill Freeman. We wish them speedy recovery.

"Topsy Turvy" was presented at the Sunny Glen on Tuesday, 12th to a capacity house with entertaining items between acts. The dance following the play was much enjoyed.

The petition presented at the council meeting at Lake McGregor school on Saturday, regarding the widening and grading of the road from the bottom of Heath Hill to Vulcan was successful in its purpose, to the gratification of those who travel it.

Mrs. Wood of the Women's Home Bureau Service who is sent to us from the Department of Agriculture will conduct a basketry course under the auspices of the W.I. at the church, April 29th-May 2nd. All ladies interested are cordially invited to attend this three-day short course which is given free of charge. Call 1312 for further information.

The April meeting of the W.I. was held at the hall the 11th with a good attendance. Details for the basketry course were arranged and results of supper and concert held on March 24 were reported. A sale of articles, valued at not more than 50c was held for benefit of the flower fund and a very pretty hooked rug donated by Mrs. Jack McKay and won by Mrs. Art Engen, was raffled, proceeds also going to flower fund. An instructive agricultural paper was given by Mrs. Hagerman and a splendid report of the conventions by Mrs. Gossett.

E. J. Garland, M.P., clashed with General Clarke, M.P., in the house when he declared "That the civil air force should be distinct from the military force." His experience of military forces had been that every "little tin pot general" had to have a staff. He would like to see the civil air force kept outside this red tape, which would strangle civil development.

In connection with the shipment of five carlots of cattle by Messrs. O. F. Malmberg & Sons from Blackie, this week the Calgary Herald says "the sale of cattle of exceptional size and record price for this season was made at the Stockyards in a shipment of five cars received from Malmberg & Sons of Blackie, and these were disposed of to Pacific coast buyers at an average of \$8.65 per hundred. Beef prices at the local yards are holding stiff."

ITEMS OF INTEREST

Car traffic is increasing and outside cars are more noticeable.

Corn production in Alberta last year was valued at one million dollars.

During the past month \$1200 worth of hogs were shipped from Champion, some of the hogs going to Seattle.

Mr. Goldberg walked into Abe's store one day and asked, "How was the fire last night?" Abe: "Sh, Sh! It's not until tomorrow night!"

Motor car dealers in Canada are selling two cars this year for one sold last year and in this district the sale of new cars has been unusually large.

It is estimated that the American tourists will spend approximately \$1,000,000,000 in Europe this year. Yet the American is still unpopular over there.

The Rev. Canon Robinson of Calgary will be the probable choice of wardens and delegates of the Pro Cathedral Church when they meet to nominate a rector to succeed the late Dean Paget.

Mr. and Mrs. A. J. Huntington and family, who have farmed in the Vulcan district for the past four years, moved over to High River recently and are now residing on the Robt. Wilson farm near town.

Rev. Geo. G. Webber has been appointed secretary of the Lord's Day Alliance for Alberta and British Columbia, in succession to Rev. Dr. C. H. Huettis, who has been removed to Toronto as General Secretary.

F. Davis of the Okotoks district, realized a good price for a horse recently when he sold a two-year-old gelding coming three to Hon. Geo. Hoadley, minister of agriculture, for \$250.

It is announced that an addition will be made of one million bushels to the No. 3 elevator of the Vancouver Harbor Board, bringing the total elevator capacity of the port to 7,000,000 bushels.

Work has been commenced on the photographic aerial survey by Flying Officer A. L. Morfee. This photographic survey will cover the area along the foothills between Sheep Creek and extending along to Ghost River and the work will be done from this point.

Twenty-three farmers in the Fort Vermilion district, 650 miles north of the international boundary, last year raised a total of 9,200 bushels of wheat and 13,000 bushels of oats. Their average for wheat was 25½ bushels and for oats 36½ bushels. Their barley averaged 30 bushels. This district is 200 miles further north than the farm of the wheat and oat champion, Herman Trelle.

It is reported at Calgary that the Anglo-Persian Oil Company, which is practically British-owned, is to open an office in Calgary this spring, from which an extensive geological survey campaign for oil will be carried out.

Plans are being considered for bringing out to Alberta about 2,000 Hungarians who are of a sturdy agricultural type. Two hundred reached Calgary early and were distributed to adjacent farms, being looked after by the Canadian Colonization Association.

As a result of conferences held on Monday between members of the Alberta Oil Operators' Association and Hon. O. L. McPherson, minister of public works, it is likely that \$25,000 will be spent on road work in the Turner Valley oil fields this season. This is the belief of oil operators who have offered to raise a contribution of \$10,000 to help with this work. The minister of public works would not state definitely what amount the government was prepared to advance, but operators believe that it will be more than equal to their contribution.

Canada's first air mail venture will be launched this summer between Father's Point on the St. Lawrence and Montreal. Squadron Leader J. H. Tudhope, now commanding the Vancouver, B.C., unit of the Royal Canadian Air Force, has been chosen to take charge of its operations. Tudhope served with distinction in the world war and is known as an experienced service flyer. Squadron Leader J. H. Tudhope resided for some time at High River being engaged on the staff of the Department of National Defence Air Force. The appointment will be learned with much interest by many friends at this point.

CANTATA
Song of Sixpence

By the Junior Choir of United Church

ITEMS OF INTEREST

J. J. Carrick, ex. M.P., a former Kincardine, Ontario boy, has secured control of the township of Rouyn, Quebec at a price of \$500,000.

The best measure of a cow's efficiency is the feed cost of 100 pounds of milk. If you use this yardstick you will not be misled by changing factors such as selling price of milk.

All previous records for millionaires in the United States were broken when 207 individuals made net income returns in the net income class \$1,000,000 and over for the calendar year 1925, this number nearly trebling the total for the previous year, 1924, when there were only 75 such individuals.

The member for Macleod Federal Riding, G. G. Coote, advocated in the House of Commons on Monday last, a royalty of 5 per cent to owners of surface rights on which oil or gas has been discovered. Inadequate compensation, said Mr. Coote, was being paid to owners of surface rights on such lands. Hon. Charles Stewart, minister of the interior, replied that he would be pleased to make a statement of the whole question when the estimates of the department of mines were under consideration.

Confidence was expressed by Hon. Charles Stewart, minister of the interior, during a debate in the commons that if the board of railway commissioners found the cost of transporting Alberta coal to Ontario was not more than seven dollars a ton this rate could be put into effect immediately by order-in-council without waiting for another session of parliament. The minister agreed that to enable Alberta coal to successfully compete with American anthracite in the markets of Ontario a \$7 a ton rate was necessary and intimated that if the board found the cost to be greater than that the government would be prepared to grant assistance in order to make the transportation of a million tons a year of Alberta lignite into Ontario economically feasible. The government would take the same view in this matter as it had in granting assistance to the maritimes.

NEWS OF INTEREST

Man (entering lunch room): "Is the manager in?" Girl at the lunch: "No he's out to lunch."

Sixty horses were sold at the Macleod Horse Sale last week prices ranging from \$75 to \$120.

Farming and seeding operations are now in progress here and there and next week will see great activity in this respect.

John Bull has decided to put a tax on imported films and has also formed a \$5,000,000 company for the development of British films.

A pupil in the local school was asked to state the difference between "submit" and "succumb" and replied: "You submit to an operation and then succumb."

One result of Charlie Chaplin's divorce proceedings in the States is to send him to England, where (it is stated) he will make his future films. This will certainly be a good thing for the new movement for British films.

As a result of the Cow Bill introduced by Hon. Duncan Marshall, then Alberta Minister of Agriculture, the province is faced with a loss of from \$500,000 to \$700,000. This amount being due but uncollectable from farmers who bought cows under the Cow Bill.

The Alberta Wheat Pool has not issued any new contracts. A report that these new contracts had been issued is erroneous. Members of the Wheat Pool will receive these in due course, but in the meantime are advised not to pay any attention to rumors regarding this matter. The new contracts will be for a period of five years from the date of the expiration of the present contract. Present Pool members will not be charged any fee for signing the new contracts if signed before August 1928.

A protest against the dumping of Swiss and other European immigrants in Alberta cities and towns has been made by the provincial government. Acting Premier George Hoadley has wired Hon. Robt. Forke, minister of immigration, calling his attention to the fact that men are being brought here, ostensibly as farm workers, who are actually in the unskilled labor class and unfit for work on the farm. With no provision made for them on their arrival here and with a scarcity of the sort of work they are able to do, they are in most cases thrown upon the public for support, and it is this phase of the situation that the government is protesting.

RATHER WELL PUT

An old farmer attended a big picnic and stayed over to watch the dancing at night. He hadn't been out in the world much and he was deeply interested with the girls' clothes at the dance.

"Some of the ladies' clothes I see here," he said, "put me in mind of a barb wire fence."

Somebody asked him why.
"Well," said he, "it's this way—they appear to protect the property without obstructing the view."

"How old are you?" inquired the visitor of his host's little son. "That is a difficult question," answered the young man, removing his spectacles and wiping them reflectively. "The latest personal survey available shows my physiological age to be 12, my moral age 4, my anatomical age 7, and my physiological age 6. I suppose, however, that you refer to my chronological age, which is 8. That is so old-fashioned that I seldom think of it any more."

The visitor was being shown about by the head of the up-to-date business house. "Who is that dapper youth at the glass-topped desk?" he asked. "Oh, he keeps the index showing where the index cases are." Who is the young man with the gray gaiters and the efficient ears?" "He keeps an index showing the length of time it takes to index the indexes." "Who is the girl with the golden hair?" "She decides under what index an index to the index of the filing cabinets should be placed." "And who is the gray-haired man at the disordered desk in the corner?" "Oh, that's old Jiggs. He doesn't fit in very well with the rest of the office, but I have to keep him around. He's the only employee who can find important papers when I want them in a hurry."

The Prince of Wales rode his own mare Lady Doon to a thrilling victory in the South Notts point to point steeplechase in Oxtou, England, on April 7. The 3½ mile race was run on a heavy course. The Prince was cheered wildly by women betters who had backed Lady Doon.
